Our great offer to subscribers our ever heretoffers made Charles eclipses any ever heretofore made. Charles Dickens was the greatest novelist who ever fived. No author before or since his time has won the fame that he achieved, and his works are even more popular to-day than during his lifetime. They abound in wit, humor, pathos, masterly delineation of character, vivid descriptions of places and incidents, thrilling and skillfully wrought plots. Each book is intensely interesting. No homeshould be without a set of these great and remark-

Yet there are thousands of homes in America not yet supplied with a set of Dickens, word. Yet there are thousands of homes in America not yet supplied with a set of Dickens, the usual high cost of the books preventing people in moderate circumstances from enjoying this luxury. But now, owing to the use of modern improved printing, folding and stitching machinery, the extremely low price of white paper, and the great competition in the book trade, we are enabled to offer to our subscribers and readers a set of Dickens' works at a price which all can afford to pay. Every home in the land may now be supplied with a set of the great author's works.
